

SIJO VARGHESE

Full-Stack Developer | Front-End Specialist

Doha, Qatar | Phone: +974 50989190 | Alt: +91 9048739343

Email: sijovarghese808@gmail.com

LinkedIn: linkedin.com/in/sijo-varghese-792840198 | Portfolio: sijovarghese808.github.io/sijo-Portfolio

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 6+ years of experience designing, developing, and maintaining scalable, high-performance web applications across front-end and back-end ecosystems. Proficient in Angular, React, JavaScript (ES6+), TypeScript, and .NET, with deep expertise in RESTful and SOAP API development, component-driven architecture, and CI/CD pipelines. Proven track record of modernizing legacy systems, optimizing application performance, ensuring cross-browser compatibility, and collaborating in Agile/Scrum environments to deliver high-impact solutions for B2B, B2C, and FOS platforms. Skilled in mentoring teammates, leading front-end initiatives, and adopting emerging technologies.

CORE TECHNICAL SKILLS

Front-End Development: Angular, React, Vue.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, RxJS, NgRx, 11ty, Nunjucks, Microfrontend

UI Frameworks & Libraries: Bootstrap, Tailwind CSS, Angular Material, PrimeNG, PrimeFlex

Back-End & APIs: .NET, RESTful API, SOAP API, SQL, Firebase

Tools & DevOps: Git, CI/CD, Figma, Agile/Scrum, Jira, Trello

Core Competencies: Team Leadership, Mentoring, Problem-Solving, Cross-functional Collaboration, Communication

WORK EXPERIENCE

Full-Stack Developer — Travvise Technologies

December 2022 – Present

Doha, Qatar

- Lead front-end modernization efforts by integrating legacy travel applications with new services, and design and develop RESTful APIs using .NET and SQL databases to strengthen system performance and reliability.
- Integrate GDS (Amadeus, Travelport), NDC, and LCC Supplier APIs to streamline complex travel booking workflows, enabling reliable multi-source flight, hotel, and travel inventory access across platforms.
- Implement cost-effective development strategies and build lightweight, reusable component libraries that improve user experience while ensuring reliable REST and SOAP API integration.
- Develop dynamic UI components using Angular with TypeScript, Bootstrap, Angular Material, and PrimeNG to elevate user experience across FOS, B2B, and B2C platforms.
- Hold a leadership role in front-end development projects, mentoring team members and driving collaboration and continuous learning within the team.

Front-End Developer — Neoito Technologies

February 2020 – December 2022

India

- Delivered 10+ full-cycle web application projects using modern frameworks, serving diverse clients across e-commerce, SaaS, and enterprise domains.
- Leveraged HTML, Angular, React, Next.js, Vue.js, 11ty, JavaScript, jQuery, and Nunjucks to build robust, dynamic user interfaces.
- Implemented Bootstrap and Tailwind CSS to enhance visual design and ensure cross-browser compatibility.
- Contributed to internal and client projects, developing innovative solutions tailored to diverse business needs.

- Participated in the project estimation team, providing insights for accurate planning and resource allocation.
- Mentored team members, sharing expertise and fostering a collaborative, supportive work environment.

UI Developer (Trainee) — Orisys India Consultancy Services

September 2019 – February 2020

India

- Designed and built responsive web interfaces using HTML5, CSS3, and JavaScript best practices, establishing strong foundations in front-end architecture.
- Monitored and enhanced web page performance through continuous improvement initiatives, achieving measurable gains in user satisfaction and load speed metrics.
- Collaborated with senior developers to implement UI designs from Figma mockups, ensuring pixel-perfect accuracy and adherence to accessibility standards.

EDUCATION

Master of Science in Computer Science

September 2017 – May 2019

Mahatma Gandhi University, Kottayam

- Advanced coursework in algorithms, data structures, software engineering, and programming languages.
- Engaged in practical projects and research, applying theoretical knowledge to real-world scenarios and developing critical thinking and problem-solving skills.
- Capstone Project: Steganography in Police Cell — developed using ASP.NET with MS SQL Server.

Bachelor of Science in Physics with Computer Applications

July 2014 – May 2017

Mahatma Gandhi University, Kottayam

- Proficient in Java, C, C++, and Visual Basic; active participant in coding competitions and hackathons.
- Showcased problem-solving skills and innovative thinking through various coding programs and competitions.
- Capstone Project: An Experimental Study on the Aerodynamics of Paper Planes.

CERTIFICATIONS

- JavaScript and Cloud Computing — Udemy
- Python — Cognitive Class

ADDITIONAL INFORMATION

Languages: English (Fluent), Malayalam (Native), Hindi, Tamil

Awards: Record Smasher Award for Outstanding Performance — Neoito Technologies

Documents: Valid Qatar ID (QID), Qatar Driving License

Interests: Web Design, Design Thinking, Front-End Architecture, Cloud Computing, UI/UX Design, Travel
